

January 20: Reminder, Webinar on Quality Indicators Version 4.1 Changes, Session 1, Part 2 Access Information

The AHRQ Quality Indicators team is providing a two-part webinar series to review the changes from Version 3.2 to Version 4.1 of the Quality Indicators. The second part of this session will focus on, incorporating new data elements (POA and Point of origin) and incorporating new codes (ICD-9-CM and MS-DRG). Future sessions, starting this spring, will provide in-depth information on specific changes/topics of the Quality Indicators.

The session is offered twice to provide participants a choice of available days. Session 1, Part 2 will be offered on January 25, 2010 and January 27, 2010, 2:00-4:00 EST. To avoid going over the number of allotted dial-in ports, we request that you group in conference rooms when possible. Please note that the session will be recorded and posted to the AHRQ QI site (<http://www.qualityindicators.ahrq.gov/>) in case you are unable to attend or do not have access to the Webex service.
